

What is a Coin or Pick Board?

Coin Boards and Pick Boards are a style of pull tab game. Like any regular deal of pull tabs, they have a predetermined ticket count and a definite payout and profit.

Coin Boards have a large, colorful board instead of a flare. Collectible silver coins are embedded in the board and winning tickets contain color-coded numbers that correspond to the numbers on the board, indicating which prize the player wins. Coin winners also win additional cash prizes, which are all predetermined and clearly indicated on the flare. However, the specific amount that any particular coin wins is only revealed when the coin is removed from the board, which adds to the excitement and suspense of the game.

Some Coin and Pick Boards also feature merchandise prizes, such as jackets, jewelry or plush. The merchandise prizes often draw players who normally don't play pull tabs, and encourage regular pull tab players to buy more.

Pick Boards have perforated windows, in place of coins, that correspond to the color-coded numbers indicating the cash or merchandise prize won.

Coin Boards and Pick Boards can help make your location a more interesting and enjoyable place to play bingo!
